

*Molecular Systematics of Marine Zooplankton*

**Census of Marine Life  
Postdoctoral Position at the University of New Hampshire**

Postdoctoral position in molecular systematics of marine zooplankton, including molecular species identification, phylogeography, and phylogeny. Position is funded through the Census of Marine Zooplankton (see <http://plankton.unh.edu>), a new field project of the Census of Marine Life (CoML). Expertise with standard molecular genetic procedures required, including DNA and RNA purification, PCR, primer design, cloning, DNA sequencing, and data analysis. During Summer 2005, this position will move with the project director from UNH to the Department of Marine Sciences, University of Connecticut – Avery Point.
